The Future is Foreseen

1. Cryptocurrency becomes main stream in real-world application
2. More real world assets get more tokenized
3. So many blockchains and ICO for so many different applications

1. So many wallets and addresses
2. Loss of fund causing by invalid transaction
3. Scam ICO and unregulated fund raising
4. So many transaction fraud taking advantage of blockchain technology without real asset ownership movement

Situation

1. There are many cryptocurrencies with high volatility on different blockchains
2. There are many ICO happening, some are scams
3. Authority and Regulator get frustrated of regulation and control

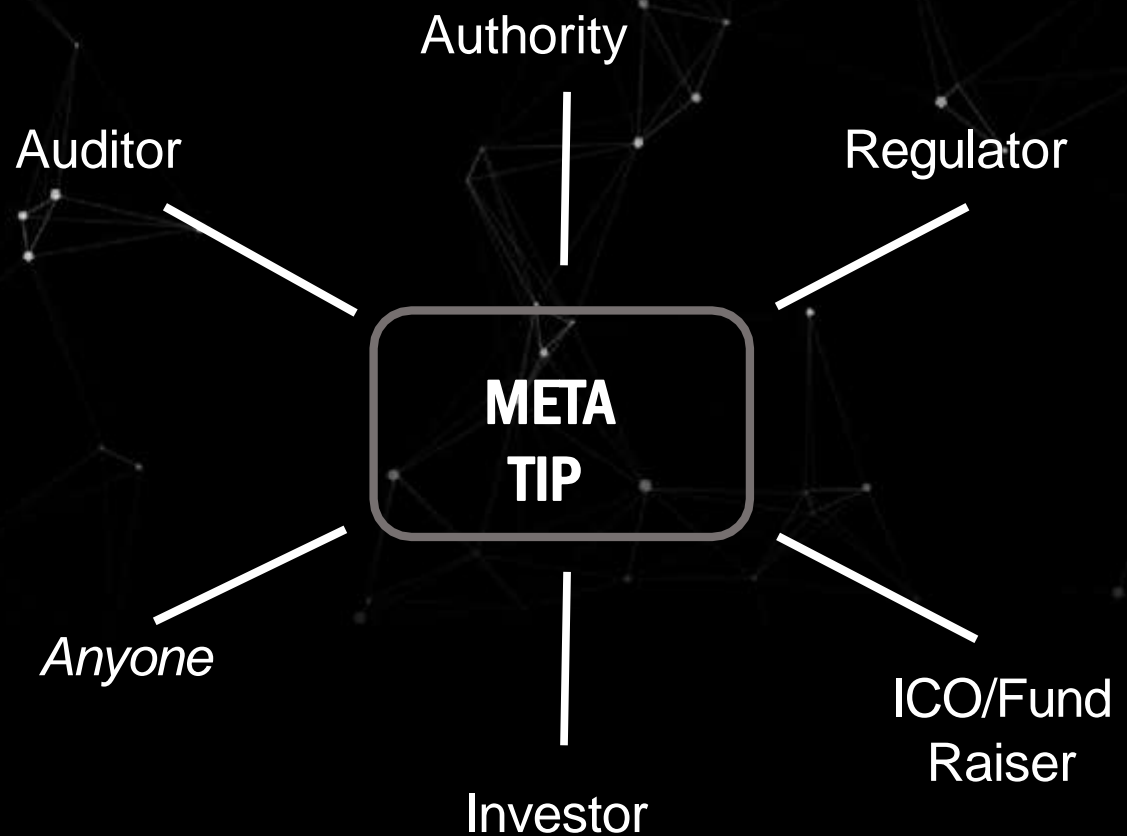

Complication

1. There are many wallet and blockchain addresses. Sending fund to invalid or incorrect address causes fund to lose forever
2. ICO owner has difficult time handle several deposit address
3. Many investor lose their investment from scam ICO
4. Creating crypto back by real world asset is a waste of time and resources
5. Authority has no practical way to control ICO

Solution

Cross-Chain Trustless Identity

1. Universal wallet that can handle any crypto on any blockchains
2. Universal wallet that can create new digital asset which links to real world asset
3. Universal address using premium name that users can use to send any coins to without fear of losing their fund
4. Certified address by Regulator to prove that deposit address is authentic belonging to real business entity
5. Gradable/scorable address by Regulator base on business case and business entity
6. Regulator may earn some fee from registered ICO or coin transaction

Everyone here needs digital identity

Premium Name

JOE creates Universal Address JOE and link it to Ethereum and Bitcoin addresses and tell his friends about it

With MyMetaWallet, his friend can send any coins to JOE that he likes without fear of losing fund

Private Key is always with JOE and JOE is the only solely owner of the JOE name.

JOE

Premium Name

Sender

Wallet

Certified Address/Name

JOE creates Universal Address JOEICO
and link it with any blockchain address

JOE ask XTI Oracle to certify/give credit
linking to real world business entity

XTI Oracle

Fund/ICO Raiser

Premium Name

Oracle Regulation Fee

Any fund on any registered blockchain can be sent to JOEICO

Investor feel safe sending fund to certified JOEICO address METAWallet “may” deduct small fee and send to third party address defined by Oracle

Investor

Wallet

Fund/ICO Raiser

Oracle

Small fee deducted to 3rd party address

KYC Friendly for ICO

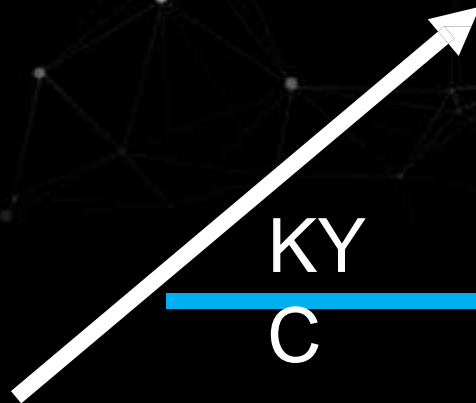

Investor's KYC information store on each personal wallet can be obtained by ICO owner and oracle if required or as an option
